

Healthcare Portfolio

We are in business for over 120 years and are currently working in Ireland, UK, Europe and the Middle East.

Jones Engineering Group
Engineering Contractors

Healthcare Overview

- Jones Engineering Group has an unequalled track record for completing major projects in the medical sector.
- Fast-track project completion is our particular strength.
- Jones Engineering Group has a reputation for delivering projects safely, within budget and on schedule.
- Our Maintenance Division has service contracts with the majority of large-scale hospitals throughout Ireland.

St.Vincent's Private Hospital, Dublin

St. Vincent's Private Hospital is the largest private hospital in Dublin. Jones Engineering Group has installed the complete mechanical, electrical and sprinkler services in this acute 260-bed hospital. The facility includes operating theatres, high dependency unit, X-ray, ambulatory day care facilities, consulting suites, pathology facilities, pharmacy and administration offices.

Value € 26m | **Programme** 18 months

Mater Hospital, Dublin

The new Mater Adult Hospital is the only critical care centre in Ireland, where each patient is looked after in a single room. We have recently completed the electrical services installation to this 120-bed adult hospital, which is located in the centre of Dublin City. The works were carried out on a live operating hospital site, without causing any disruption or impact to existing healthcare facilities.

The Facilities include:

- New Emergency Department
- 12 New Operating Theatres
- New Radiology Department
- New Energy Centre
- New Outpatients Department
- Intensive Care & High Dependency Units
- Catering & Waste Management Departs
- Basement Car Parking

Value € 32m | **Programme** 30 months

Midland Regional Hospital, Tullamore

We completed the mechanical services to this acute care public hospital. Features include 350 beds over four storeys with a total size of 30,000m² comprising of:

- Radiology
- Pathology
- Accident & Emergency
- 6 Operating Theatres
- Catering Blocks
- ICU
- CSSD
- CCU
- Laboratories
- Energy Centre

Value € 12m | **Programme** 30 months

Waterford Regional Hospital

Jones Engineering Group has been working in Waterford Regional Hospital for the last 25 years. We have carried out numerous upgrade and extension projects including Ambulance Centre, CSSD, Lab and Pathology extensions, new Radiology Diagnostics and new wards.

Value € 20m | **Programme** Ongoing

Beaumont Hospital, Dublin

Jones Engineering Group was responsible for the complete installation of the mechanical services within the original 620-bed hospital complex. We have continued to carry out various upgrade projects including the boiler house, which was carried out while maintaining steam supply to the hospital at all times.

Value € 25m | **Programme** 48 months

Hermitage Medical Clinic, Lucan

We completed the mechanical services to this private hospital in Lucan. Features include a 110 bed accommodation wing; 39 consultants' suites; five operating theatres including two of ultra clean; two radiotherapy units; MRI & CT scan facilities; full medical gas system; pneumatic transport system.

Value € 7m | **Programme** 12 months

Dublin Dental University Hospital

Value € 7m | **Programme** 36 months

Galway Clinic

We installed the mechanical and HVAC services to this new Private Clinic located in Galway. Features include 102-bed accommodation, 26 consultants' suites, 5 operating theatres, radiotherapy units, MRI and CT scan department, laboratories, restaurant and kitchen.

Value € 7m | **Programme** 12 months

Bons Secours Private Hospital, Galway

We have installed the mechanical services to the expansion of this existing hospital, which included four theatres, two endoscopy rooms, day ward, new radiology department and consultants' clinic building. The mechanical services included co-ordinating the integration of services into an airtight building, pneumatic transport, thermostatic mixing valves and full air-conditioning to theatres and critical areas.

Value € 3m | **Programme** 16 months

Dublin Dental University Hospital

Jones Engineering Group installed the mechanical services associated with the redevelopment and extension of this city centre hospital and training faculty. The building housed the original hospital in 1899 and won numerous architectural awards following its refurbishment.

Value € 2m | **Programme** 18 months

Naas General Hospital, Kildare

We completed the mechanical services to the extension of the existing hospital for phases 2, 2a, 3a and CSSD. Features include 279-bed accommodation, A&E, Radiology, Oncology, Pathology, Cardiology and Department of Nursing.

Value € 5m | **Programme** 20 months

Letterkenny General Hospital, Donegal

We installed the complete range of electrical services to the extension of this existing hospital. The extension comprises a three-storey A&E department which includes treatments rooms, resuscitation room, X-ray Department and various wards with 76 beds in total.

Value € 5m | **Programme** 18 months

St. Mary's Hospital, Dublin

St. Mary's Hospital is a specialist hospital caring for over 65's, with a total of 388 beds. We carried out the mechanical services to this new 150 wing. Our scope of work included underfloor heating system, water services and drainage for all bathrooms and toilets, clinical sinks, wet utility and cleaners stores. We installed medical gases providing central plant and distribution for oxygen and vacuum, and ventilation, to physio rooms.

Value € 2.5m | **Programme** 6 months

St. Francis Hospice, Dublin

St. Francis Hospice is a state of the art hospice specialising in palliative care for cancer and motor neuron patients. This 11,000m² development consists of Day care and in-patient facilities. We were responsible for the complete Installation of electrical services at the new facility, which included hospice rooms, including clinical and non-clinical facilities.

Value € 2.2m | **Programme** 15 months

St James's Hospital, Dublin

St. James's Hospital is the largest university teaching hospital in Ireland. We installed the complete mechanical services to the phase 1C wing and energy centre in the complex. Our Maintenance division continues to maintain the building services in various elements across the hospital campus.

Value € 9m | Programme 24 months

Blackrock Clinic, Dublin

Jones Engineering Group were responsible for the complete design and installation of the mechanical and electrical services within this private clinic. Services include A&E, endoscopy, radiology and cardiology.

Value € 5m | **Programme** 24 months
